WIN-TRON ELECTRONICS TO DISTRIBUTE IRIDIUM 9555 SATELLITE PHONE

**New compact, powerful hand-friendly unit features
integrated speakerphone, improved SMS and email, upgraded Mini-USB data port**

Spring Lake Heights, New Jersey – Win-Tron Electronics has been selected to distribute the new, compact Iridium 9555 Satellite Phone.

“The Iridium 9555 is not only the smallest satellite phone Iridium has ever made, it’s also the most powerful. With a significantly reduced footprint, more hand-friendly form factor and aerodynamic features such as an internally stowed antenna, this sleek handset is designed to easily go wherever you do,” said Eddie Winder, Senior Vice President of Win-Tron Electronics.

The Iridium 9555 incorporates innovations such as an integrated speakerphone, improved SMS and email messaging capabilities, and an upgraded Mini-USB data port. Optional accessories include a solar charger, Pelican case and external antenna. Docking station solutions allow convenient use while underway with the advantage of taking the phone with you when leaving the boat.
